**Town/MHS Memory**  
 I was holding Jean VanValkenburgh's hand when she died in a car wreck in 1957. She was trapped in the car and they couldn't get her out. I tried to comfort her while they were working on the car. There was gas all over and they were afraid it would catch fire. She told me to leave so we both wouldn't get burned up if it caught fire and I told her I wasn't leaving as God wanted me to stay with her so she wouldn't be alone.
